

# Simple small sewn teddy

Created by Laura Russell for SiMBA

Trace 2 copies of the bear template onto your material\* and cut out.

Sew around the dotted lines leaving a gap where the solid line is on the right hand side of the template then turn inside out.

To make the nose use a small scrap of material, stuff then stitch it on from the inside.

Stuff the main body of the bear, sew up the gap on the right hand side.

Use black thread to sew on the detail for the ears, eyes and nose and mouth; then add a ribbon around his neck.

\* - We are grateful for any handmade donations that we receive but can we please ask that when making this pattern you use a neutral colour of material i.e lemon / white / cream rather than pink or blue.
